# BOARD TOUCH 21" OUTDOOR

BY TAILORADIO

BOARD TOUCH 21" is a modular touchboard, designed and manufactured in Italy. Thanks to its high production standards and components, it comes with a comprehensive **3-year warranty.**

BOARD TOUCH 21" is a solution suitable for both indoor and outdoor use, available with floor stand and wall brackets. It can be **implemented with peripherals** such as an intercom and QR code reader.

The **BOARD TOUCH 21"** significantly reduces transportation and installation costs, with standard transport on a Euro pallet and simplified installation.
The high configurability and modularity make the tool suitable for current and future customer needs.

The solution is complemented by a **configurable Mediaplayer** compatible with major operating systems: Android, Linux, and Windows. It meets safety standards with CE Certification.

FLOOR BOARD

WALL BOARD
