TOTEM 43" INDOOR

BY TAILORADIO

TOTEM TR-T43-I is a freestanding indoor totem, designed and manufactured in Italy. TR-T43-I is available with both Touch and non-Touch monitors, with a floor base.

It is also available with a column module for the **integration of peripherals** such as QR code/barcode reader, NFC reader, thermal printer, and unattended POS.

The **TOTEM TR-T43-I** significantly reduces transportation and installation costs, with standard transport on a Euro pallet and simplified installation.
The high configurability and modularity make the **TR-T43-I** suitable for current and future customer needs.

The solution is complemented by a **configurable Mediaplayer** compatible with major operating systems: Android, Linux, and Windows. It meets safety standards with CE Certification.
